A program and project manager with line management experience and a strong customer focus; skilled at managing cross-functional teams, budgeting, strategic analysis, serving internal clients, and working with corporate partners.

EDUCATION

- Master of Business Administration** Class of 2011
University of California, Berkeley – Haas School of Business
Berkeley, CA
- B. S., Electrical Engineering** – graduated with honors 2005
United States Coast Guard Academy
New London, CT

EXPERIENCE

- 2009 – 2010 **Availability Project Manager, Team Lead** Oakland, CA
U. S. Coast Guard, Surface Forces Logistics Center
- Senior availability project manager for the U. S. Coast Guard’s 378 ft. High Endurance Cutter fleet; as program manager, responsible for planning and overseeing all major repair actions on 12 cutters geographically dispersed throughout the United States.
 - Facilitated discovery of customer needs, and develop and implemented action plans; routinely interacted with vessel captains and engineering department heads (end customer).
 - Together with two direct reports, executed \$25 million annual depot maintenance budget; accountable for briefing senior management, including Pacific Area Chief of Naval Engineering, on status for emergency in-theater repairs and high value routine repairs.
- 2007 – 2009 **Availability Project Manager** --
U. S. Coast Guard, Maintenance & Logistics Command, Pacific
- Administrated routine and emergency vessel repair contracts, including multi-million dollar drydock contracts involving taking the 378 ft. vessel up out of the water and performing preventative and corrective repair work. Meet customer needs with existing capabilities.
 - Chaired multi-branch/division/command acquisition team consisting of staff engineers, procurement and purchasing specialists, a government port engineer (on-site technical representative), and cutter personnel (end user); responsible for specification compiling and technical/budgetary review of contract changes.
 - Coordinated extensively with major industry partners; intimately familiar with federal contracting and business to government sales and procurement process.
- 2005 – 2007 **Assistant Engineer Officer** Alameda, CA
U. S. Coast Guard, USCGC MORGENTHAU
Rapidly rotated through several supervisory positions as part of leadership-track program:
- Assistant Engineer Officer
 - Engineering department second in command, supervised four officers, four chief petty officers, and approximately 37 petty officers and non-rated personnel.
 - Responsible, under the Engineer Officer, for the operation, care, and maintenance of the cutter’s main propulsion plant, auxiliary machinery and piping systems; for the operation and maintenance of electric power generators and distribution systems; for repairs to the hull; and for providing ship facilities, equipment, and personnel required for repairs to material and equipment beyond the capability of other departments.
 - Auxiliary Officer
 - Electrical Officer
